

*Moonflower Designs*

*Topeka, KS*

*September 12, 2011*

*Moonflower Designs was established in 2003 with the release of the first design "Yule". This kitted project was the first in a series of 16 designs and was designed to introduce stitchers to the new line of hand-dyed fabric from Picture This Plus which is owned by friends who operate a local shop.*

*I am the designer, Patty Hurwitz, and I took over ownership and management of The Stitchers' Village in June of 2010.*

*Moonflower designs was named for the beautiful night-blooming flowers that were planted in my garden the year I started my design company.*
